**THE DISTRIBUTED
ENERGY SHOW**

On behalf of the entire team, welcome to Energy Technology Live 2026.

The energy sector is at a pivotal moment. As we accelerate the transition to cleaner, more resilient energy systems, the need for practical solutions, collaboration and innovation has never been greater. Energy Technology Live (ETL) exists to bring those elements together.

Across two days, ETL 2026 brings together technology providers, energy users, utilities, policymakers and investors to explore the solutions shaping the future of energy - from distributed generation and energy storage to flexibility, digitalisation and system optimisation. Through The Distributed Energy Show and The Energy Storage Show, the event offers a unique platform to see technologies first-hand, share insight and address real-world challenges facing the sector.

This year's event features three dedicated conference stages designed to give you a deeper, more focused view of the technologies and trends reshaping the energy landscape. Across The Distributed Energy Stage, The Energy Storage Stage, and The Energy Technology Live stage, you'll hear from industry leaders, innovators, and policymakers tackling the sector's most pressing challenges. From deployment strategies and long duration storage breakthroughs to digitalisation, flexibility markets, and whole system optimisation, each stage offers practical insight and real world perspectives to help you navigate the transition with confidence.

Whether you are here to discover new technologies, build partnerships, gain market insight or contribute to critical conversations, we hope you leave inspired, informed and better equipped to drive change within your organisation and the wider energy ecosystem.

Thank you for being part of ETL 2026. We look forward to welcoming our exhibitors, speakers, sponsors, and attendees, whose expertise, innovation, and support will shape two days of insight, collaboration, and sector defining discussion. We wish you a productive and engaging event as you explore the technologies, ideas, and partnerships that will drive the next phase of the UK's energy transition.

Complimentary Wifi

The NEC provides a free WIFI service.
NETWORK: _NEC FREE WIFI (No code required)

This Wi-Fi network can understandably become highly trafficked/saturated incredibly quickly; it is suitable for light browsing only and connectivity is not guaranteed.

Cloakroom

Cloakroom facilities will be available on show open days outside the entrance to the hall.

Items are charged as follows:
£2 per coat or umbrella / £3 per bag or luggage

Cloakrooms open 30 minutes before show open and remain open up to an hour after show close; overnight storage is not possible.

Catering

On show open days, food & beverage items will be available to purchase from catering outlets both on the Atrium concourse and in the hall. Please note the NEC is a cashless venue.

Toilets

Toilets are located within Hall 9, and outside of the hall entrance in the Atrium.

Social Media

We are very active on social media over the course of the show. The show's hashtag is **#ETL26**.

Please tag us on social and use the shows # to ensure we see the post and retweet/share.
